

Security Services & Resources

ITS offers a firewall service, local area network (LAN) services, and a variety of resources for increasing your awareness of computer security.

ITS Firewall Service

<http://its.psu.edu/firewall/>

<http://tns.its.psu.edu/services/FW/firewall.html>

The Information Technology Services (ITS) Firewall Service will provide you with cost-effective, practical, real-world protection and prevention for your LAN, securing the network from external attacks and internal abuses.

LAN Services

<http://tns.its.psu.edu/services/LAN/LANdesign.html>

Telecommunication and Networking Services (TNS) will design, install, maintain, and modify LANs. The TNS LAN design team assists with physical network designs and can provide detailed drawings of the proposed new LAN configuration or review services such as any additions, moves, changes, and repairs that may be necessary for existing designs.

Wireless LAN Service

<http://tns.its.psu.edu/services/wireless/>

[WirelessLANService.html](http://tns.its.psu.edu/services/wireless/WirelessLANService.html)

The ITS Wireless SecureNet Complete service is provided to colleges or departments that wish to have ITS design, implement, and maintain the entire wireless LAN, including access points. The ITS Wireless SecureNet Assist service provides an easy and secure method for interconnecting a new or existing wireless LAN which is owned/maintained by the college or department to the Penn State wireless network using state-of-the-art encryption technology.

Security Guides

<http://sos.its.psu.edu/guides.html>

These are self-help guides offered by the Security Operations & Services office related to assisting you in reformatting your hard drive and reinstalling your operating system.

Security Training

<http://its.psu.edu/training/>

<http://wbt.psu.edu/>

ITS Training Services offers free hands-on and lecture seminars, free online tutorials, and handouts and resources that you can use on your own or during the free seminars.

Resources and Event Information

<http://its.psu.edu/theitsEvent/>

For future reference, you can find many of the training, handouts, presentations, and other helpful information from the ITS Event at the ITS Event Web site.

Information Technology at Penn State: Guidelines & Information

<http://its.psu.edu/itsavvy/>

This Web page links out to a variety of information technology resources for all audiences at Penn State.
